

Protocollo N.

Torino, 9 Gennaio 2025

Subject: Letter of interest in the IMREG project activities

With this letter, we would like to express our eager interest in the project activities led by Alcé Communication, under the direction of Michael Miguères, concerning the initiative *Information Measures for the EU Cohesion Policy (IMREG)* and the *Support for Information Measures Relating to the EU Cohesion Policy for 2024*.

We deeply admire the focus of this project on fostering collaboration between Italy and France, a partnership that highlights the shared values and mutual interests of our countries within the European Union. Additionally, we are particularly impressed by the project's emphasis on addressing the needs and challenges of transborder local communities, promoting cohesion and sustainable development in these unique and vital areas.

Should the application for this initiative be successful, we will contribute to the implementation and management of its activities, supporting the vision and objectives of IMREG in strengthening European cohesion.

Sincerely,

Stefano Tallia
